

**REMARKS**

Claims 1-5 are pending in this application. By this Amendment, claim 1 is amended to better distinguish over the prior art. Reconsideration is respectfully requested.

The Office Action rejects claims 1-5 under 35 U.S.C. §103(a) over Kim (U.S. Patent No. 6,734,935). The rejection is respectfully traversed.

In particular, Kim does not disclose or suggest at least a reflective film disposed in reflected display areas, the reflective film having a light-scattering surface, as recited in claim 1. The Office Action does not seem to consider the amendments to the claims made in a December 29, 2004 Amendment. Specifically, the Office Action does not indicate whether Kim discloses a reflective film disposed in reflected display areas, the reflective film having a light-scattering surface.

Kim further does not disclose or suggest at least that the reflective film has a light-scattering surface including projections, as recited in independent claim 1.

Specifically, Kim discloses an array panel for a transfective liquid crystal display device.

However, Kim does not disclose or suggest at least a reflective film disposed in reflective display areas, the reflective film having a light-scattering surface including projections. On the contrary, nowhere are these features disclosed or suggested in Kim.

Thus, Kim does not disclose, for example, forming projections with an irregular upper surface to scatter the incident light. Because Kim fails to disclose these features, it would not have been obvious to modify Kim to arrive at the claimed invention. Thus, it is respectfully requested that the rejection under 35 U.S.C. §103(a) be withdrawn.

In view of the foregoing, this application is in condition for allowance. Favorable reconsideration and prompt allowance of the claims are earnestly solicited.

Should the Examiner believe that anything further would be desirable in order to place this application in even better condition for allowance, the Examiner is invited to contact the undersigned at the telephone number set forth below.

Respectfully submitted,
